

Sam and Bloop's Challenges #5 *Have fun!*

1 Coded message

Each number corresponds to a letter on the phone keypad. There's just one problem... there are three letters for each number. For example, "4" could be G, H, or I. Can you find the right letters to decode the message?

T b r v c n

8 4 3 2 8 7 3 7 4 8 3 7 2 6 8 6 8 7

c a b o

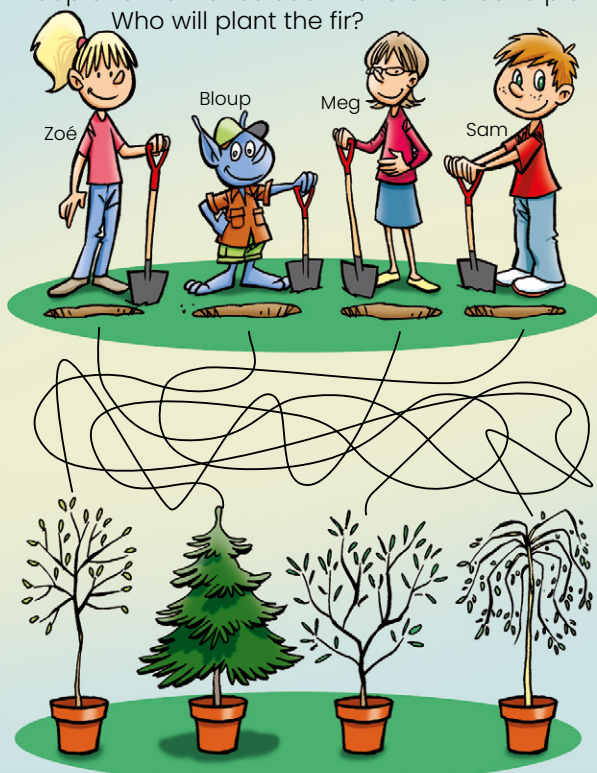

6 6 9 6 8 7 2 6 5 5 2 2 6 7 2 8 4 6 6

d v s f

8 6 3 7 4 8 3 9 6 8 7 2 3 3 5 9

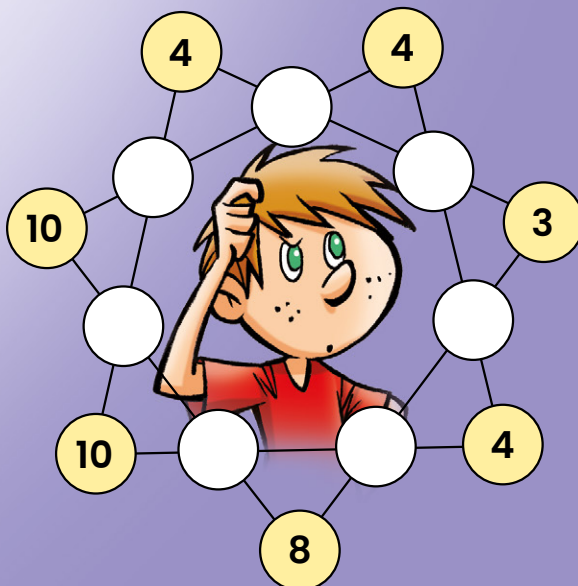

2 Ready... set... dig!

Bloop and his friends each have one tree to plant. Who will plant the fir?

3 Sam's brain teaser

Sam is stumped! Can you help him figure out how many trees he needs to plant in the blank spaces? The 4 numbers in each line must add up to 24. See if you can find the missing numbers.

DID YOU SEE ME?
